From the Amsterdam Gazette, dated Jan. 19.

Cracow, December 26.

THE Great Council of the Estates of the Republick broke up the 17th (as was said in our former) after having been thank'd by the Vice-Chancellor of the Kingdom in the Name of King Augustus. Eleven Resolutions were pass'd in this Council: By the first, they return most humble Thanks to his Majesty, for the Zeal he has continued to shew for the Publick Weal, and exposing himself to Danger for the Good of his Subjects. The second approves all the Acts pass'd in his Majesty's Absence by the Estates of the Republick; annuls all the Treaties made by the adverse Faction; and declares Stanislaus and his Adherents to have incurr'd the Penalty provided by the Laws against such as Usurp the Throne. The 3d and 4th relate to the Army of the Kingdom, and the Council of the Treasury, which last have full Power given them to fill up the Number of the Troops authoriz'd by the Acts registred in the Archives, to 36000 Men, viz. 12000 Polish Horse, and 24000 Foot and Dragoons, whom they are to take Care to pay, and are also to provide for the Charge of the Artillery. The 5th relates to the Commission of certain Deputies. The 6th and 7th regulate the Taxes and Imposts for maintaining the Army. The 8th empowers the Treasurers and Commissioners of Poland and Lithuania, to coin Silver Money to be coin'd, of the same Weight and Standard as that of the Neighbouring States. The 9th ratifies the Alliance offensive and defensive concluded with the Czar of Muscovy, and empowers Commissioners to receive the Fortresses of Bialacerkiew and other Places of Ukraina that are to be restor'd. The 10th and 11th order the Payment of divers Sums for reimbursing the Ambassadors of the Republick, the Deputies of the Army, and the Marshal of the Confederacy, the Charges they have been at. These Resolutions are order'd to be printed, to be sent to the Palatinates. The Czar having taken Leave of the King, set out the 19th to return to Moscow. He has left here Prince Menzikow to command his Army under the King, till his Return, which he has promis'd shall be in April next. The Muscovite Dragoons are posted along the Vistula from Zakroczin to Plocko, to observe the Motions of the Enemy. King Augustus has order'd a great Number of Sleds to be got ready, to be made use of as Occasion may offer.

Warsaw, January 7. The Advices from Lublin confirm, that the Plague decreases daily in Russia. General Morn is nominated to go with the Character of his Swedish Majesty's Envoy to the Court of Berlin; and General Slippenbach, the King of Prussia's Envoy, has order to attend the King of Sweden wherever he goes. Prince Menzikow is advanced with several Thousand Muscovites to Pul-tow, which is but 7 Miles from hence. 'Tis believ'd the Swedes will be marching in a few Days, the Bridge on the Vistula being finish'd. Parties of Muscovites make frequent Excursions to Pragg.

Dresden, January 13. We have Advice from Berlin, that the King of Sweden is decamp'd from Blo-mia with a Body of 12000 Men, most Horse, to beat up the Quarters of the Saxon and Muscovite Troops; but we hope he will not succeed in his Design, because King Augustus is inform'd of this Motion; and many are of Opinion his Swedish Majesty seeing the Alarm is taken, will march into Polish Prussia there to take Winter-Quarters; that he may be near the City of Dantzick, to compel its Magistrates to acknowledge King Stanislaus. The Horse of our Army, which are in their Winter-Quarters, have Order to hold themselves in a Readyness to march; to divert the Swedish Arms, the first hard Frost that comes. 'Tis rumour'd General Brause, with a Body of 7 or 8000 Men, has taken up his Quarters in Cracow: If that be confirm'd, we shall shortly see a direct Correspondence settled between this Place and the Court of King Augustus; from whence Letters are now 2 or 3 Weeks a coming, by reason the Couriers are forc'd to go a vast Way about. The Prince of Anhalt Dessau, is gone back from Leipzick to his Place of Residence, where he expects the Prince Royal of Prussia. 'Tis said the former will return in the Spring to Italy, to command the Prussian Troops under Prince Eugene. They write from Berlin, that the Commissaries appointed to take a Review of the Militia of the Dominions of the King of Prussia, have sent a List to his Majesty, by which it appears they amount to 28000 Men, all robust Fellows and well disciplin'd.

Hague, January 19. Baron Fagel has referr'd it to the Consideration of the Council of State, in what Post he shall serve in the Army, after having serv'd in Portugal with the Commission of Field-Marshal. 'Tis believ'd he hopes to be made General of the Foot: Which hopes some think are founded upon the Departure of the Count de Noyelles for Catalonia; Tho' that Count has stipulated for himself to be continued upon the Establishment in the Employments he has under the States, viz. those of General of the Foot, and Governour of Bergen-op-zoom. The Duke of Marlborough, who has a great Esteem for the Count de Noyelles, and believes he may be very Serviceable to King Charles III, has not a little contributed to his being sent to Catalonia. The said Count is preparing to go over to England, in order to proceed from thence on his Voyage to Spain. 'Tis talk'd Lieutenant General Hompesch designs to go over to England likewise: As doth Cavalier, the famous Leader of the Camisars, who arriv'd here some Days ago, in the Conference held 3 or 4 Days ago between the Deputies of the States and the Envoy of Denmark, when he offer'd in his Master's Name to refer the Affair of Lubeck to the Arbitration of England and Holland, (of which I advis'd in my former,) it was urg'd, that England and Holland could not easily be Arbitrators, because they had already engag'd to be Guarantees. To this the Danish Minister reply'd, that then a 3d neutral Prince might be joyn'd with them, a Prince that could not be suppos'd to be at all interested in the Affair, and who was not of the Circle of lower Saxony, for Example, said he, the Landgrave of Hesse.

Hesse-Cassel. Upon this Declaration which seems to open a Way to an Accommodation of this Affair, the States have written to the Elector of Hanover, to desire him to forbear ordering his Troops to march, and to prevent any Acts of Hostility; which Letter 'tis hop'd will have a good Effect. The Ministers that are on the side of the Prince Administrator of Holstein think it strange that Denmark should choose England and Holland only for Arbitrators, excluding the other Guarantees; but they have been told, that the rest have engag'd themselves in particular Treaties with the House of Gottorp. We have no Confirmation yet that Majorca, Minorca, and Ivica, have deserv'd for King Charles III.

Hague, Jan. 22. The 20th the Ministers of Sweden and Hanover made a Declaration to the States Deputies, that their Masters would wait a Month's Time for the Resolution of England and of this State whether they will perform the Guaranty of the Treaty of Travendahl; their Masters being determin'd, for their Part, to perform that Guaranty; 'Tis said they were told that Time might be too short for knowing the Resolution of England, because the Winds are not in human Disposal; and at this very Time, by reason of contrary Winds, 6 Mails are due from thence: Those Ministers reply'd, 'twas convenient to set so short a Time, that an End might be put to this Affair before the Campaign begin.
